

Toolings designed for:

HAND PRESS :HM2 Y 198

HAND PRESS + TABLE KIT :PAY 245 M

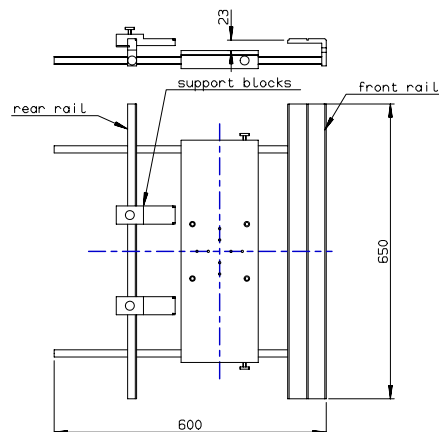

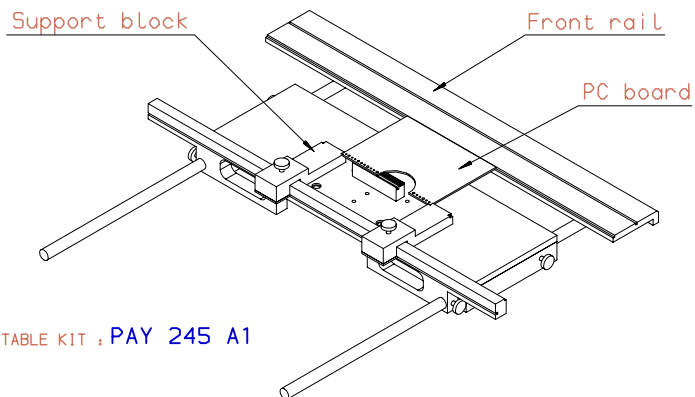

Table front view

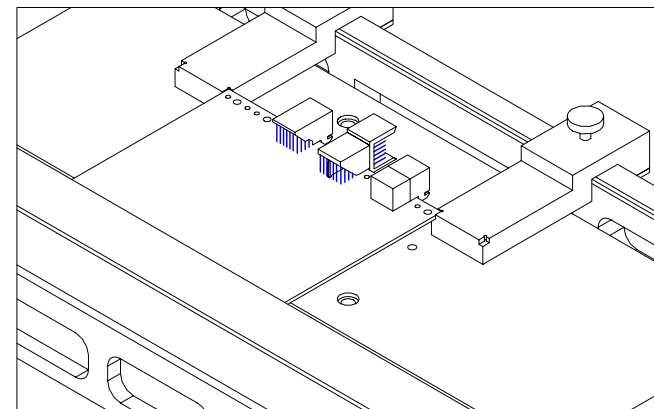

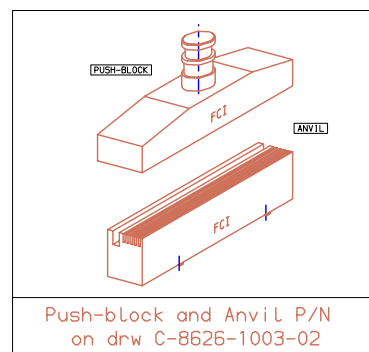

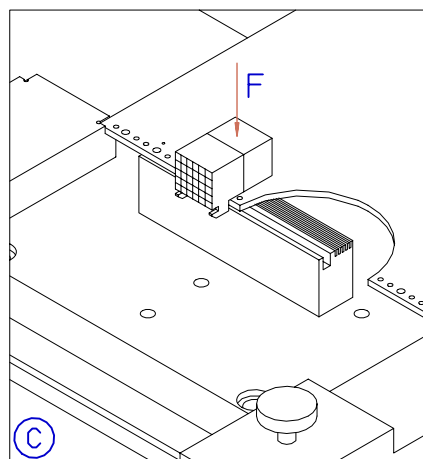

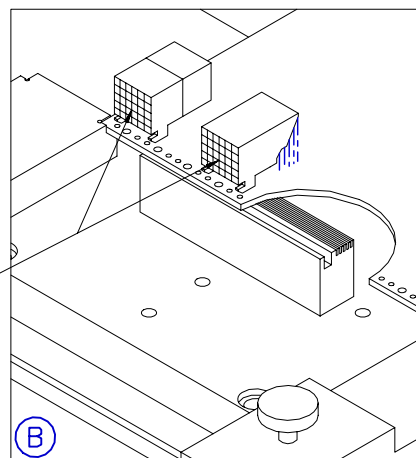

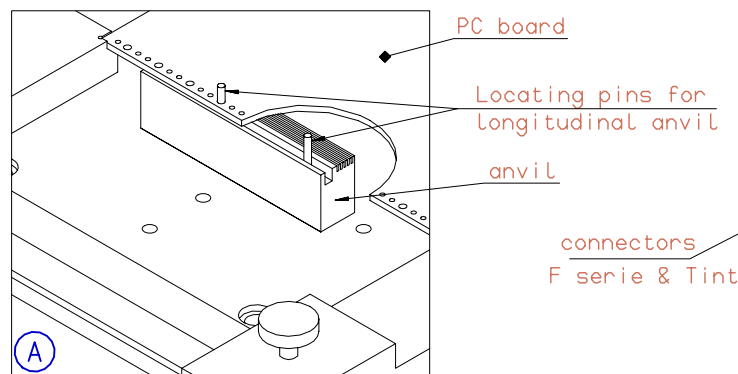

Table rear view

SETTING METHOD

1_ PCB location adjustment.

- See A
- _Insert a push block in the press.
 - _Insert the anvil on the table, parallel or perpendicular to the front rail.
 - _Insert two locating pins in the anvil holes. (at each ends for example)
 - _Adjust the front rail and the extra support blocks (of rear rail) with a minimum gap to have a correct location of PCB.
 - _Lock the position of all these parts with the locking screws.

- See B
- _Remove the two locating pins.
 - _Set a connector to be inserted.

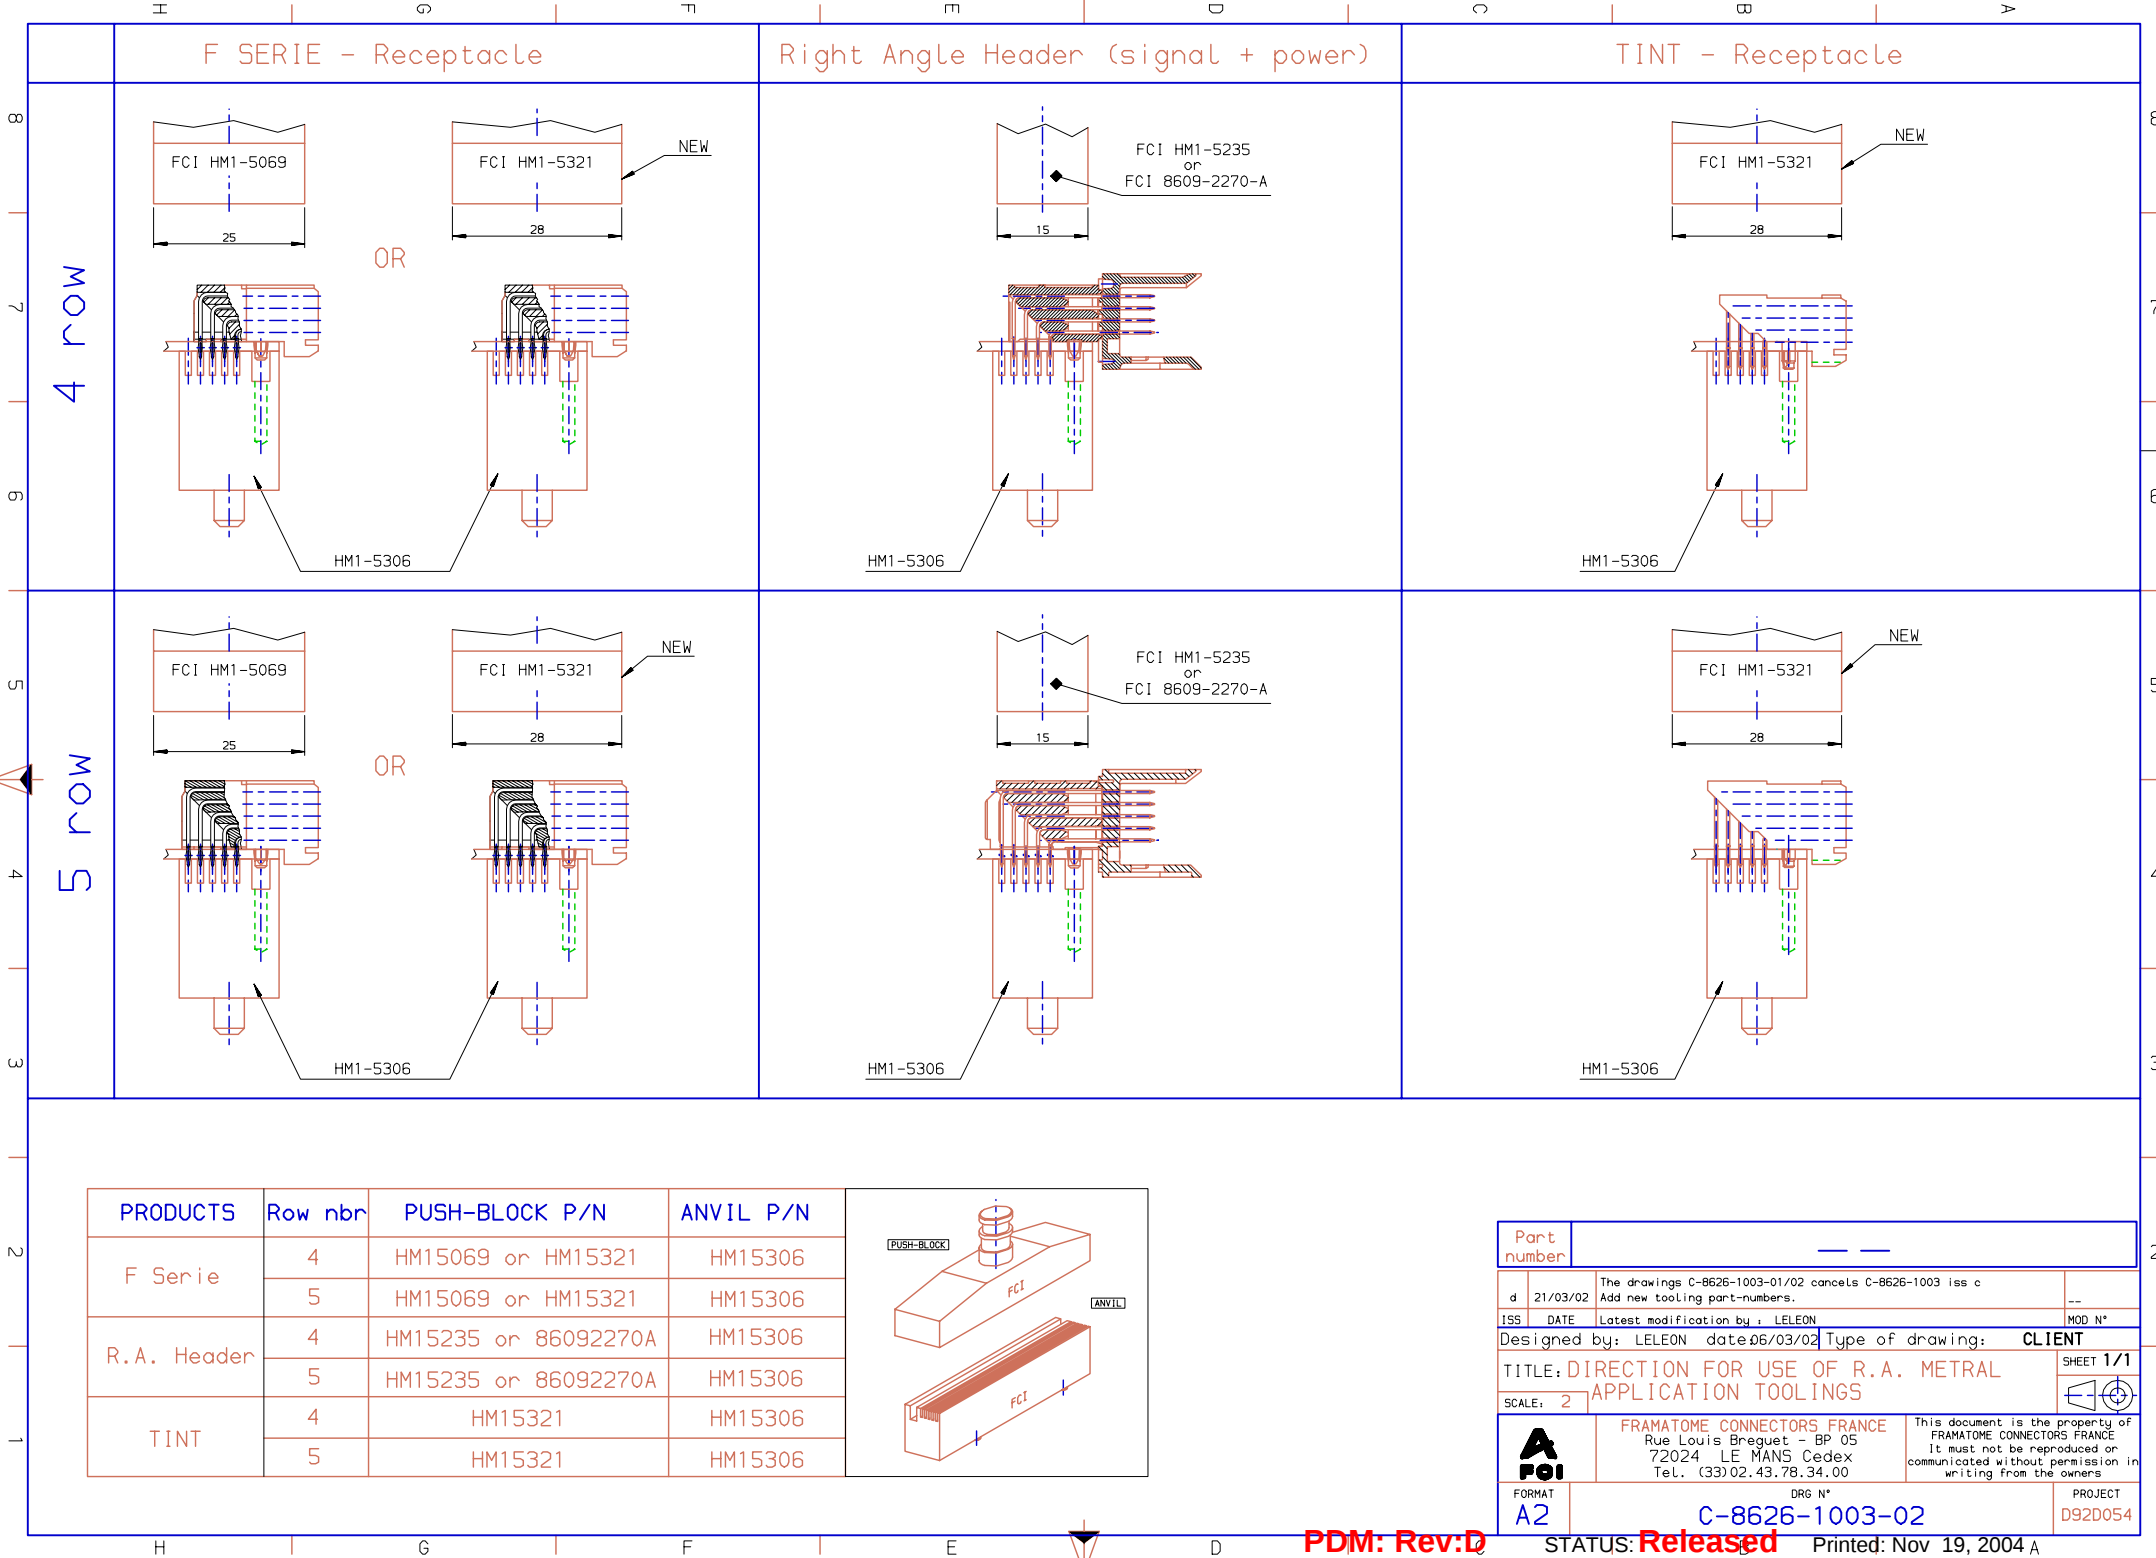

2_ Height insertion adjustment.

- See B
- _Use the height adjusting ring of the press to move up or down the table of the press.
 - _Adjustment with a connector is recommended.

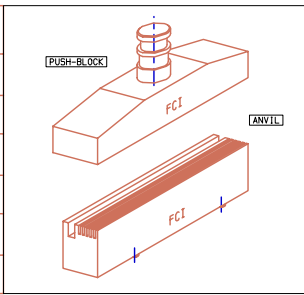

3_ Final insertion

- See C
- _Push directly with the push block according to F.
