

|  |                      |                                                                                                                                                                                                                                                                      |
|--|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <b>WARNING</b>       | Check power supply voltage and frequency. Use only modules and lamps with the same voltage and frequency ratings. Disconnect from power source to prevent electrical shock before installing or servicing.                                                           |
|  | <b>AVERTISSEMENT</b> | Déconnecter l'alimentation avant toute opération d'installation ou de maintenance, afin d'éviter les décharges électriques. Contrôler la tension et la fréquence d'alimentation. Utiliser seulement des éléments et des lampes de même tension et de même fréquence. |
|  | <b>WARNUNG</b>       | Strom abschalten um einen elektrischen Schock zu vermeiden während der Installation oder Wartungsarbeit. Prüfen Sie die Spannung und Frequenz. Benützen Sie ausschließlich Module und Glühlampen die die selbe Spannung und Frequenzen angeben.                      |
|  | <b>AVVERTENZA</b>    | Scollegare dall'alimentazione prima dell'installazione e della messa in servizio. Controllare la tensione di alimentazione e la frequenza. Usare solo moduli e lampadas con la stessa tensione e frequenza.                                                          |
|  | <b>ATENÇÃO</b>       | Desligar a alimentação antes de realizar qualquer intervenção. Verificar a tensão e frequência da alimentação. Só utilizar módulos e lâmpadas com as mesmas tensões e frequências.                                                                                   |
|  | <b>ADVERTENCIA</b>   | Durante el proceso de instalación o mantenimiento desconectar la tensión de alimentación para evitar descargas eléctricas. Comprobar tensión y frecuencia de alimentación. Utilizar módulos y lámparas con la misma tensión y frecuencia.                            |

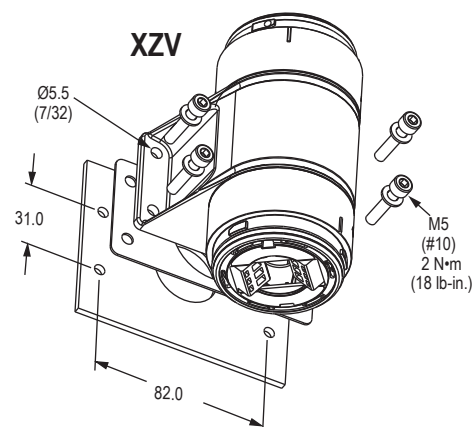

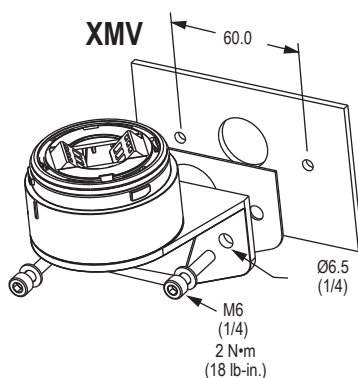

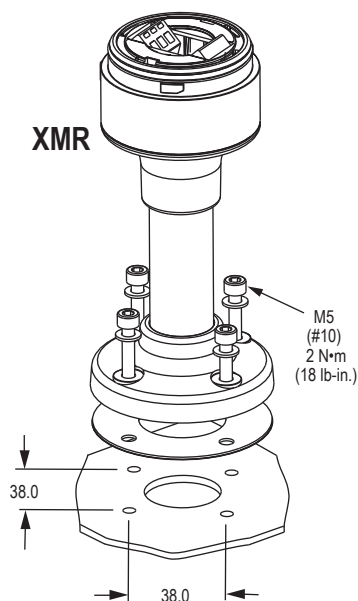

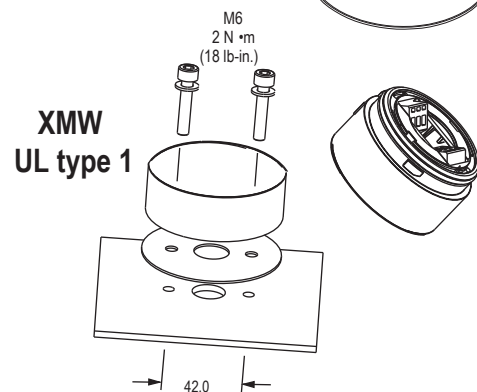

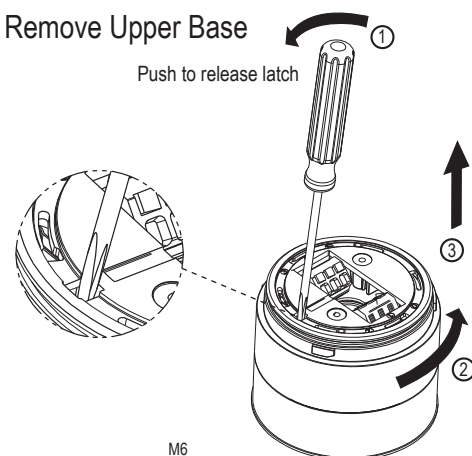

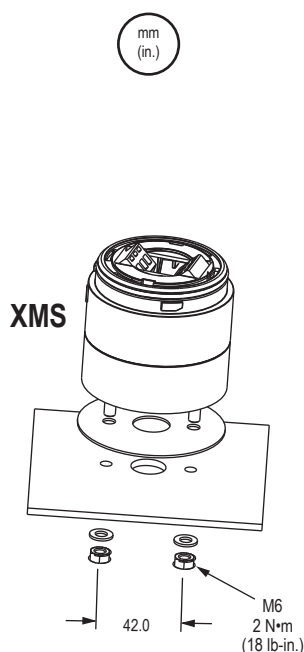

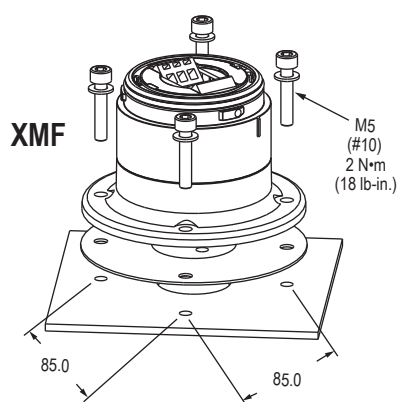

|  |                      |                                                                                                                                                    |
|--|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <b>WARNING</b>       | Do not use strobe lights around anyone suffering from cerebral disorders (epilepsy). Strobe lights may cause seizures to occur.                    |
|  | <b>AVERTISSEMENT</b> | Ne pas utiliser de stroboscopique à proximité de personnes souffrant de problèmes cérébraux (épilepsie), afin d'éviter tout risque de crise.       |
|  | <b>WARNUNG</b>       | Verwenden Sie keine Blitzleuchten-Module im Nahbereich von Personen die an Epilepsie leiden.                                                       |
|  | <b>AVVERTENZA</b>    | Non usare luci stroboscopiche nelle vicinanze di persone sofferenti di epilessia.                                                                  |
|  | <b>ATENÇÃO</b>       | Não usar luzes strobe perto de pessoas sofrendo de problemas cerebrais (epilepsia). Estas luzes podem provocar um ataque.                          |
|  | <b>ADVERTENCIA</b>   | No utilizar luz estroboscópica alrededor de personas con problemas cerebrales (epilepsia). La luz estroboscópica puede causar ataques epilépticos. |
