

BC430 Line Voltage Adapter/Battery Charger

Provides power cord operation and charging for Fluke 430 Series Power Quality Analyzers

Mains (Line Voltage): switchable 115 V $\pm$ 15% or 230 V $\pm$ 15%

Equipped with a male receptacle plug that must be connected to a line cord/adapter appropriate for local use.

(Line cord/adapter not included)

- Frequency: 50...60 Hz $\pm$ 10%
- Output Voltage: 17.8 V DC
- Output Power: 15 W
- Power Consumption: 23.7VA
- Max. Voltage to Ground: 600 V CAT IV per IEC 1010-1
