

Florafree® Crème

Skin conditioning cream to help keep skin moist, supple and in good condition.

Usage: Use at the end of work periods to help prevent skin dryness often associated with frequent hand washing and sanitising.

Features & Benefits

Protects – Helps to prevent sore and chapped skin often associated with cold, wet and warm working environments, plus frequent hand washing as regularly encountered in the food industry.

Quality – A blend of top quality cosmetic material including fatty alcohols, waxes and white oils, leave a desirable soft feel to the skin.

Reduces Contamination – Poor skin condition increases the level of bacteria present on the skin; regular use helps keep the skin in good condition.

Economical – Only a small amount is required to provide effective skin conditioning.

Toxicological Approval - Formulation assessed by a Toxicologist and declared 'non-toxic'.

Non-fragranced – Suitable for use in the food industry.

Encourages Compliance – By helping to keep the skin in good condition, encourages frequent hand washing and sanitising.

Corneometer Test - Tests show that using 4x1ml of product per day for a week in a normal working environment increases skin moisture by 25%.

Non-Greasy – Ointment based cream is easily and quickly absorbed into the skin leaving a non-greasy after-feel.

Refined Lanolin Derivative – Acts to replace lost moisture and help keep the skin supple.

Hygienic – Sealed cartridges prevent product contamination.

Neutral pH – Generally acceptable to all skin types.
