

MULTI-PURPOSE PENETRATING GREASE

Product Code: DGT

PRODUCT DESCRIPTION

Electrolube **DGT** has a powerful double action. It penetrates and lubricates mechanical parts and then produces a highly water-resistant film, which excludes moisture, providing long-term corrosion protection. The grease also prevents squeaking in numerous mechanical assemblies including locks, hinges, bolts, piping, sliding surfaces etc.

APPLICATIONS

- * Specially designed to penetrate rapidly into assemblies blocked by metal corrosion.
- * Releases, cleans, lubricates, protects and eliminates moisture.
- * Household uses include electrical and mechanical tools, sewing machines, hinge-pins, locks & hinges.
- * Hunting and fishing equipment, ski bindings, lawnmowers, motor saws, shears, bicycles etc.
- * Car lighting circuits cables aerials, doors, windscreen wipers, coils etc.
- * Ideal for breakdown and maintenance services, public works and industry (mechanical, agricultural etc).

INSTRUCTIONS FOR USE

Shake the aerosol can before use. Spray onto the parts to be treated. Wait a few moments and repeat the process for very corroded parts. Operate the part to be lubricated if necessary. Allow the solvent to evaporate completely before resuming use.

Contains flammable material. See MSDS for further information.

PACKAGING

400 ml net aerosol
