Part Number : TPFLXIC013 - HexWax expandIO-USB-FS-SS

expandIO-USB is an ultra-low cost USB I/O expander. It allows a PIC microcontroller to be remotely controlled via USB, significantly reducing time-to-market for simple USB-based products. expandIO-USB uses the Human Interface Device (HID) USB profile. It does not require USB drivers and so is immediately plug-and-play compatible with present and future Windows, Linux and Mac operating systems. expandIO-USB-FS-SS is the 20-pin SSOP version suggested for production purposes.

Flexipanel is a trusted 3rd Party Tool Provider
