

## Fixed Wallplate 2 Port PowerCat UTP / FTP Category 5E

### Features and Benefits

The PowerCat 2 Port Shuttered Fixed Wallplate offers an economic alternative to the modular system, eliminating the need for separate components as only one part is needed. The Wallplate is a complete assembly, comprising 2, C5E RJLP Connectors, Fascia, Spring Loaded Shutters and a protected labelling facility. The product is designed to be compatible with UK single gang back boxes.

Molex Premise Networks unique patented RJLP RJ45 Connector is engineered to meet the highest performance standards in the industry and offers a low profile, space saving design, that allows installation in shallow back boxes and trunking.

Suitable for high speed data transmission, the PowerCat RJLP RJ45 was designed to meet the requirements of the C5E standard which demands compliance with the PowerSum principle of measurement and test.

- UK standard 86 x 86 mm fascia
- Low Profile Cat 5E RJ45 Connectors
- Spring loaded shutters
- FTP version provides through-shield continuity
