

X90 Heavy Duty Static Grounding Clamp

Conductive (Metal) plant items and equipment run the risk of accumulating dangerous levels of static charge if they are not properly earthed. Using purpose designed, certified static earthing clamps is one of the safest and most cost effective methods of ensuring plant, equipment and people are protected from static ignitions in potentially flammable or explosive atmospheres.

- **Robust Construction**
Ensures stable and continuous contact with equipment at risk of static charging and accumulation.
- **Tungsten Carbide Tips**
Penetrating & hard wearing enabling low resistance electrical connection for safe dissipation of static.
- **Stainless Steel**
Corrosion resistant construction extends useful operational life in tough industrial environments.

VESX90 with 5m cable - [RS-385-689](#)

VESX90 with 9m reel - [RS-7800018](#)
VESX90 with 15m reel - [RS-7800012](#)

Clamp Certification:  II 1 GD T6

Reel Certification:  II 2 GD T6

Newson Gale | For over 30 years Newson Gale has been supplying the chemical and processing industry worldwide with its market leading range of static control products ensuring people and plant are protected from static related fires and explosions.

X90 Static Grounding Clamp

The robust construction of the **X90** is the perfect solution for earthing and bonding in Heavy Duty Industrial Environments.

Hard wearing **Tungsten Carbide Tips** penetrate hardened layers of coatings, dirt and rust which can **Inhibit Safe Static Dissipation**

Best practise standards

(CENELEC CL/TR: 50404 & NFPA77) recommend the use of purpose designed static earthing clamps for **safely dissipating static electricity** in potentially flammable or explosive atmospheres.

The **VESX90** can be purchased with 5m spiral cable or 9m and 15m retractable cable reels.

The **X90** can safely dissipate static from a broad range of plant equipment including:

- Large Containers and Drums
- Tanks
- IBCs
- Mobile Tankers
- Railcar Wagons

The X90 clamp forms part of the Cen-Stat range of Static Grounding and Bonding Equipment available from Newson Gale

Leading the way in hazardous area static control
