

THERMO COUPLE EXTENSION WIRE
WIRE LENGTH: 118 INCHES (3 METERS)

FEATURES:

- Kit includes one pair of mini-connectors (one male and one female) and thermocouple wire (unassembled)
- Assemble extension wire to a desired length up to 3 meters (118") long
- Ideal for connecting a thermocouple with a mini-connector to a temperature meter with mini-connector jacks.

MATERIALS:

Connectors: Hytrel

Cable: J or K extension grade wire with Teflon insulator

RATINGS:

Maximum continuous temperature: -40° to +260°C. (-40° to +500°F.)

ORDERING INFORMATION: Model 6540X

X = Calibration type "J" or "K" available

Standard Length: 118" (3m)

Ordering Example: 6540K is a "K" type extension wire kit

Note: For use in low voltage environments. Do not exceed 30VAC/60VAC.

All dimensions are in inches. Tolerances (except noted): .xx = ±.02" (.51 mm), .xxx = ±.005" (.127 mm).

All specifications are to the latest revisions. Specifications are subject to change without notice.
