

## 3500 Range Euro Card Compatible Instrument Case

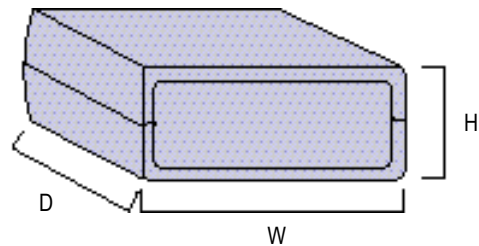

*Incorporating built-in fixing points for various sizes of Eurocard, the 3500 series of small instrument cases has natural finish pre-punched side chassis supports to which are screwed 1mm thick brushed satin finish aluminium front and rear panels.*

Graphite grey ABS top and bottom covers screw together around the chassis/front and rear panel assembly thereby ensuring a very stylish and rigid unit.

On the three larger units tilting feet are supplied which can be fitted to either the front or rear of the bottom cover with rubber feet being used in the alternative positions.

Both rear and base panels have ventilation slots enabling good airflow for forced or natural component cooling.

Part No.	Dimensions (mm)		
	W	H	D
3501	90	41	145
3502	171	56	145
3503	231	77	181
3504	247	102	220

All specifications are subject to change without notice.
